Chapter 1

A small garden, measured

1.1 Method

The study follows ~~four~~ six raised beds over ~~six~~ eight weeks.

We record soil moisture before watering each morning.

The ~~initial method uses a single calibration at setup~~ revised method includes a weekly calibration check.

These invented observations demonstrate a report comparison.

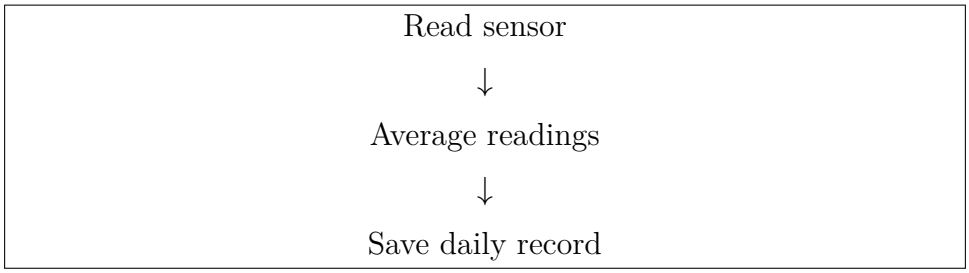

Figure 1.1: Complete daily measurement workflow.

AFTER / added - complete object

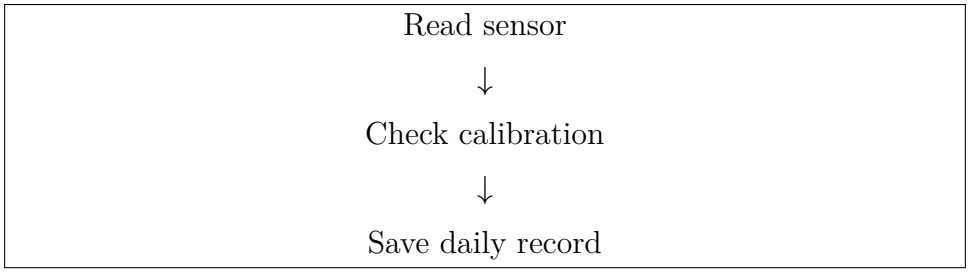

Figure 1.1: Complete daily measurement workflow.

1.2 Observations

Figure 1.1 shows the workflow. Table 1.1 gives the complete observations.

BEFORE / removed - complete object

Table 1.1: Invented measurements for demonstration only.

Bed	Mean moisture	Observations
A	38%	7
B	43%	7
C	39%	7

AFTER / added - complete object

Table 1.1: Invented measurements for demonstration only.

Bed	Mean moisture	Observations
A	41%	7
B	43%	7
C	39%	7
D	42%	7
