FIELD NOTES / PUBLIC DEMONSTRATION

A small garden, measured.

The study follows six raised beds over eight weeks.

We record soil moisture before watering each morning.

The revised method includes a weekly calibration check.

These invented observations demonstrate a report comparison.

METHOD / FIGURE 1

From reading to record.

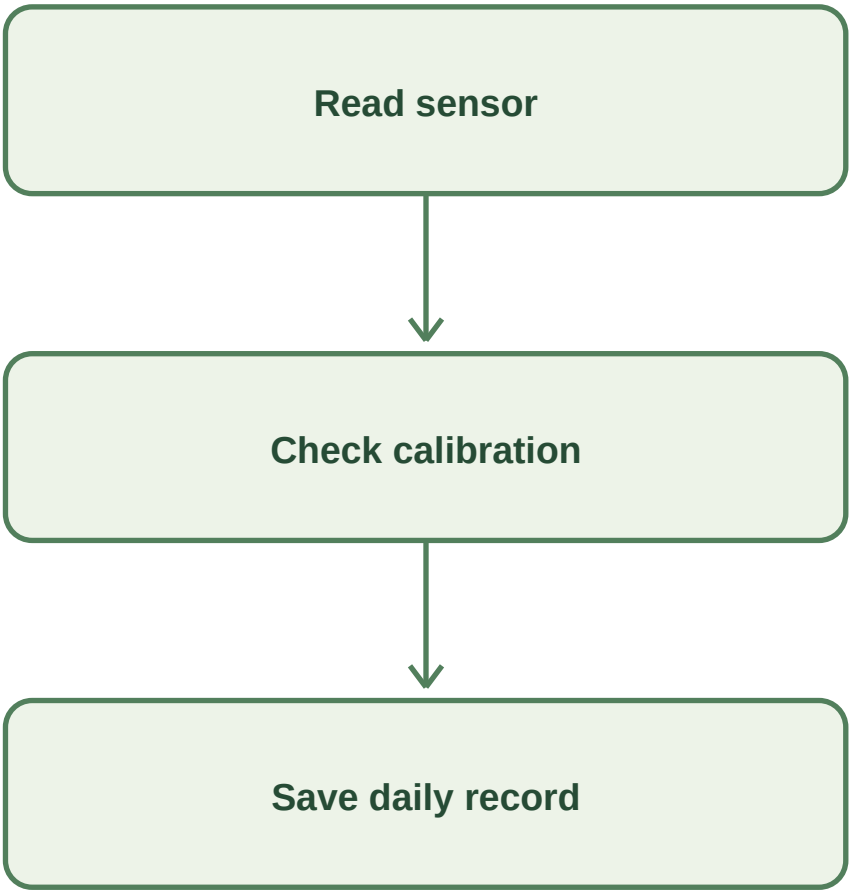

Figure 1. Complete daily measurement workflow.

OBSERVATIONS / TABLE 1

A week at a glance.

Table 1. Invented measurements for demonstration only.

Bed	Mean moisture	Observations
A	41%	7
B	43%	7
C	39%	7
D	42%	7
